

Transparency Initiative Fresenius Kabi UK Ltd

At Fresenius Kabi we care for the life of patients worldwide. To fulfil our commitment to benefit critically and chronically ill patients, collaborating with physicians, hospitals and patient organisations is essential. These partnerships are not only required to develop products that best meet clinical needs. Healthcare professionals are provided with necessary expertise and education to be able to safely and effectively use our drugs and medical devices. In supporting medical research and education Fresenius Kabi contributes to patient safety and increased access to new technologies and services.

We expect transparency, accountability and high ethical standards from ourselves – and our stakeholders expect the same from us. Their trust is rewarded by acting with utmost integrity and responsibility. We believe that transparency is key to safeguard the integrity of these partnerships to the public and remain trusted.

Fresenius Kabi wants to ensure adherence to the guidance set out by NHS England and the Association of the British Pharmaceutical Industry (ABPI) code of conduct. As part of this code we have committed ourselves to disclose certain value transfers to Healthcare Professionals, Healthcare Organisations on an annual basis.

In each such interaction, we respect the obligation of Healthcare Professionals to make independent treatment decisions. Healthcare Professionals must give consent for this data to be published, where individuals consent is not provided an aggregate figure is disclose.

Disclosure UK is the publication of relevant transfers of and Healthcare Organisations values from companies to Healthcare Professionals on a searchable database, published on the ABPI website.
