Tobramycin for Injection 1.2 g PBP Vial 50 mL Product Changes

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that the following changes have been made to our **Tobramycin for Injection 1.2 g PBP Vial 50 mL**:

- **Container closure system:** The 3-piece aluminum tear-off seal and grey removable stopper will be replaced with a white flip-off plastic cap. Once the cap is removed, it allows access for the needle to puncture the grey stopper. This stopper cannot be removed from the vial.

There has been **no change** to the formulation and the product remains **latex-free** and **free** from **preservatives**.

DIN	Fresenius Kabi Product Code	MDP Product Code	McKesson Product Code	Product Description	Availability Date
00533688	C300351	928781	297481	Tobramycin for Injection 1.2 g PBP Vial 50 mL	August 15, 2023

Please note, during this transition period the current product may still be in distribution until inventory is depleted, at which point the current product will be **discontinued**.

If you would like to obtain more information on this product, please contact your hospital representative or our Customer Service Department at (877) 821-7724.

Sincerely,

Joseph Le
