Dear Valued Customer,

As you may be aware, the final phase of a regulatory law enacted by Congress in 2013 will be taking effect on November 27th of this year. The Drug Supply Chain Security Act (DSCSA) will require electronic tracing of all serialized products through the supply chain in November of this year. **Without the below information Fresenius Kabi will not be able to satisfy any of your orders containing products subject to DSCSA after November 2023.**

According to our records, your company has recently purchased serialized products from Fresenius Kabi. In order for Fresenius Kabi to continue selling these products directly to customers, it is required to obtain the below information to be compliant with the new regulations.

To assist in this transition, use this [Survey Link](#) along with the attached spreadsheet to help guide you with formatting all the required information. If there are any questions related to the survey or DSCSA, please reach out to [EPCISSetup@fresenius-kabi.com](mailto:EPCISSetup@fresenius-kabi.com). It is very important that Fresenius Kabi receives the following information for **each** unique ship to and sold to location:

- Your Company Name
- Your Company Address
- Your Company Global Location Number (GLN)
- Your Global Company Prefix (GCP) (if assigned)
- Your Company SGLN

It is understandable that some of this information may be new or unknown. To help in the process we have created a FAQ page that contains more detailed information with additional links to relevant sources. We recommend reading through this document as a first step. This can be found here: [Drug Supply Chain Security Act \(DSCSA\) - Fresenius Kabi USA \(fresenius-kabi.com\)](#)

Please reply with any questions you may have, and we can help guide you through the onboarding process.

Thank you,

Fresenius Kabi DSCSA Team

**Laurel Wade**
