## Cefazolin for Injection, USP 10 g Vial Labelling Update Notice

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that changes were made to our **Cefazolin for Injection, USP 10 g Vial** vial & tray labels:

- **Labelling:** Applicable changes have been made to include the new Fresenius Kabi Canada design and to meet Health Canada's Plain Language Labelling (PLL) requirements.
- **Vial Label:** The section of the vial label for manually documenting reconstitution details has been removed.

Please note that certain lots of this product were impacted by a labelling error. ***The vial labels were incorrectly printed without a barcode.*** Although this has been classified as a labelling error, it does not pose any safety implications for patients.

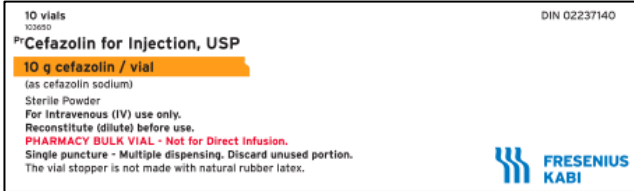

DIN	Fresenius Kabi Product Code	MDP Product Code	McKesson Product Code	Product Description	Impacted Lots
02237140	103650	974833	127119	Cefazolin for Injection, USP 10 g Vial	18A1257 exp. 3/2027 18A1258 exp. 3/2027 18A1259 exp. 3/2027 18A1261 exp. 3/2027

There is **no change** to the formulation, the product stopper remains free of natural rubber latex, and the product is **free** from **preservatives**.

Please see images below for a comparison of new labels against the retired labels.

Please scan the QR code to sign up for our email communications.
