Cefazolin for Injection, USP 100g Bag
Labelling Clarification Notice

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that certain lots of our **Cefazolin for Injection, USP 100g bag** were impacted by a labelling error.

Carton: The carton is missing the 2D DataMatrix code. However, the human-readable information is clearly printed, accurate and easily identifiable.

Primary Packaging and Secondary Packaging: There might be an issue retrieving the encoded information in 2D DataMatrix code when scanning. However, human-readable information is clearly printed and remain accurate and identifiable.
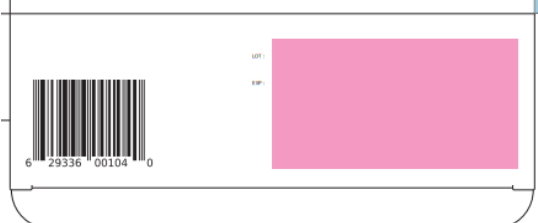

These discrepancies do not affect the quality and safety of the product, and they do not pose any safety implications for patients.

Please refer to the table below for information about the impacted lots.
