Vancomycin Hydrochloride for Injection, USP 10 g Vial Labelling Update Notice

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that changes were made to our **Vancomycin Hydrochloride for Injection, USP 10 g** vial & carton labels:

- **Labelling:** Applicable changes have been made to add a 2D DataMatrix barcode to the vial and carton labels, encoded with GTIN, lot and expiry information. The linear barcode is also removed from the vial label.

Please note that certain lots of this product **were incorrectly printed without a barcode on the vial label**; however, human readable GTIN, lot, and expiry information is present. The carton label has a 2D DataMatrix and human readable GTIN, lot, and expiry information. There are no safety implications for patients.

DIN	Fresenius Kabi Product Code	MDP Product Code	McKesson Product Code	Product Description	Impacted Lot Numbers
02241807	C314061	1000494	363788	Vancomycin Hydrochloride for Injection, USP 10 g Vial	6135431 6135742 6135851 6136002

There is **no change** to the formulation, the product stopper remains free of natural rubber latex, and the product is **free** from **preservatives**.

We thank you for your patience and understanding in this matter. Should you have any questions or concerns, please reach out to our Customer Service Department at (877) 821-7724.

Sincerely,

Joseph Le
