Ceftazidime for Injection, USP Product Changes

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that the following changes have been made to our **Ceftazidime for Injection, USP**:

- **Labelling:** The carton and vial labels have been updated to include the new Fresenius Kabi Canada design and Plain Language Labelling (PLL) requirements.
- **Product code:** The new product codes are outlined in the table below.
- **Pack size:** The pack size on the 6g format has changed from 6 vials per pack to 10 vials per pack.

A more detailed look at the current versus “new” labelling can be found in the table below. There has been no change to the formulation, the stopper remains **latex-free**, and the product remains **free** from **preservatives**.
