Magnesium Sulfate Injection, USP 500 mg/mL SD Vial 10 mL Product Changes

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that the following changes have been made to our **Magnesium Sulfate Injection, USP 500 mg/mL SD Vial 10 mL:**

- **Vial:** There have been changes to the vial material and stopper colour.
- **Labelling:** The tray and vial labels have been updated to include the new Fresenius Kabi Canada design and Plain Language Labelling (PLL) requirements.
- **Product code:** The new product code is outlined in the table below.
- **Latex content:** The stopper is now **latex-free**.

A more detailed look at the current verses “new” labelling can be found in the table below. There has been no change to the formulation and the product remains **free** from **preservatives**.

DIN	Product Description	Current Product Code	NEW Product Code	Current UPC Codes	NEW UPC Codes	NEW MDP Code	NEW McKesson Code	Availability Date
02139499	Magnesium Sulfate Injection, USP 500 mg/mL SD Vial 10 mL	C96410P	C964011	Vial: 629336964109 Tray: 629336000418	Vial: 629336005079 Tray: 629336005086	TBD	176445	December 15, 2022

Please note, during this transition period the current product code may still be in distribution until inventory is depleted, at which point the current product code will be **discontinued**.
