Propofol Injection 10 mg/mL Label Update Notice

Dear Valued Customer,

Fresenius Kabi Canada would like to advise that changes have been made to our **Propofol Injection 10 mg/mL SD Vial 20 mL, 50 mL, and 100 mL** vial & tray labels:

- **Labelling:** Applicable changes have been made to include the new Fresenius Kabi Canada design and to meet Health Canada's Plain Language Labelling (PLL) requirements. A 2D DataMatrix barcode is added to the carton and vial labels, encoded with GTIN, lot and expiry information.

There is **no change** to the formulation, the product stopper remains free of natural rubber latex and the product is **free** from **preservatives**.
