Ceftazidime for Injection, USP Short-Dated Product Notification

Dear Valued Customer,

Fresenius Kabi Canada regrets to advise that due to further production delays we will be extending the backorder on our **Ceftazidime for Injection, USP 2 g SD Vial 50 mL** until March 1, 2022.

Please also note the available inventory of our **Ceftazidime for Injection, USP 1 g** and **6 g** is now short dated with 3 months dating. The current available inventory expires April 30, 2022. Please see table below for availability dates of fresh inventory. Please continue to order the short-dated product until the new stock is available.
