Dear Valued Customer,

Fresenius Kabi is committed to providing information to support your planning for patient care. The purpose of this letter is to make you aware that effective April 1, 2025, Fresenius Kabi will no longer market, sell, or distribute Idacio® in the United States. Any Idacio® inventory that exists in the channel may continue to be dispensed until such inventory has been exhausted. Further, Fresenius Kabi will provide notification on any purchase orders we are unable to fill for Idacio® as we wind down supply of Idacio®.

**Fresenius Kabi will continue to provide Adalimumab-aacf product, which is the same molecule as Idacio®. Adalimumab-aacf will continue to be marketed, sold, and distributed by Fresenius Kabi in the United States.** Again, this notice only relates specifically to Idacio® and does not impact supply of Fresenius Kabi's Adalimumab-aacf, which will continue to be available with the same presentations for customers and patients.

The Idacio® NDCs impacted by this change can be found below.

NDC	Product Description
65219-554-08	<b>Idacio®</b> (adalimumab-aacf) 40 mg/0.8 mL Prefilled Pens
65219-554-28	<b>Idacio®</b> (adalimumab-aacf) – Starter Pack for Plaque Psoriasis or Uveitis 40 mg/0.8 mL Prefilled Pens
