### **Fresenius Kabi strengthens its position in i.v. drugs by acquiring Dabur Pharma, a leading manufacturer of oncology generics**

Fresenius Kabi, a business segment of health care group Fresenius, continues its growth strategy in intravenously administered drugs (i.v. drugs). The company today announced the acquisition of 73.3 % of the share capital of the Indian company Dabur Pharma Ltd. for a price of INR 8,782 million (€ 139 million) or INR 76.50 per share in cash. In accordance with Indian regulations, Fresenius Kabi also announced a public offer to acquire up to a further 20 % shareholding for a price of INR 76.50 per share in cash. Fresenius Kabi has entered into an agreement with a third party to secure the participation of 2.4 % of Dabur Pharma's share capital in the public offer.

Dabur Pharma, headquartered in New Delhi, is one of the leading suppliers of generic drugs and active pharmaceutical ingredients (API) to treat cancer. The company holds a substantial number of drug registrations in Asia, Europe and the US. Dabur Pharma is also one of the few manufacturers worldwide to hold international registrations for all steps within the manufacturing process of cytostatic agents. The company operates two production facilities in India and one in Great Britain as well as a research and development center equipped in accordance with European and US standards near New Delhi.

The acquisition significantly expands Fresenius Kabi's i.v. drug portfolio and secures its supply of high quality APIs for cytostatics. With the acquisition of Dabur Pharma, Fresenius Kabi will also broaden its offering of patient-specific oncology therapies. In future, Dabur Pharma will supply Fresenius Kabi's compounding centres in Europe, Asia-Pacific and Latin America where patient-specific formulations of i.v. drugs and parenteral nutrition are being prepared for cancer patients.

Dabur Pharma is listed on the Bombay Stock Exchange and on the National Stock Exchange of India. The company achieved sales of more than € 41 million with generic oncology drugs and APIs in fiscal year 2006/2007 (April 1, 2006 to March 31, 2007) and employs about 960 people. Dabur Pharma pursues an international growth strategy and will benefit from Fresenius Kabi's international sales and marketing organization going forward. In addition, Dabur Pharma will continue to be focused on expanding its research and development.

The acquisition will be entirely debt-financed from funds that have already been procured. The transaction is expected to be accretive to Fresenius Group's Cash EPS in 2 - 3 years.

Closing of the transaction is subject to completion of the public offer process in line with local regulations as well as relevant approvals required under Indian law. This is expected to occur at the beginning of Q3 2008.

### **Conference Call**

A conference call to inform about the acquisition will be held on April 21, 2008 at 4.00 p.m. CEDT. All investors are cordially invited to follow the conference call in a live broadcast over the Internet at [www.fresenius.com](http://www.fresenius.com) / Investor Relations / Presentations. A replay of the call will be available on our website shortly after the call.
