Announcing the launch of our new website

Dear Valued Customer,

We are pleased to announce the launch of our new Fresenius Kabi Canada website. It has been redesigned to reflect the feedback received from our customers and aligns us with all Fresenius Kabi regions globally. The website is set to go-live on **Wednesday, September 13, 2017** and can be accessed through <http://fresenius-kabi.ca/>.

Amongst the new features is improved navigation and usability. We have simplified the structure of our content, and now all product and safety information can be found in a single location under "Products and Services". As always, our website is designed with the healthcare professional in mind. We remain dedicated to providing the most up-to-date product availability and supply information for our customers. All product updates can be accessed via the homepage under "Product Updates".

We hope you enjoy the new website and its ease of use. We continuously strive to make our website a valuable source of information for all customers.

For any questions, suggestions, feedback or comments, please contact Stephanie Kao at stephanie.kao@fresenius-kabi.com.

Sincerely,

George Shamsoun
Product Manager – IV Drugs
