Propofol Injection 10 mg/mL 20 mL SD Vial Pack Size Change

Dear Valued Customer,

Fresenius Kabi Canada would like to inform you that we will be changing our **Propofol Injection 10 mg/mL SD Vial 20 mL SD Vial** pack size. The pack size will be changing from 5 vials per pack to **10 vials per pack**. Please note there has been no change to the formulation and the product remains latex and preservative free. There will also be no change to the price per vial, but the price per pack will be adjusted to reflect the larger pack size.

We will be discontinuing the existing pack size as soon the inventory depletes. Please note that the product code will be changing as outlined in the table below.

DIN	Product	Current Product Code	NEW Product Code	Current Pack Size	NEW Pack Size	NEW UPC Codes	NEW MDP Code	NEW McKesson Code	NEW McMahon Code	Estimated Availability Date
02437643	Propofol Injection 10mg/mL 20mL	4462021	4463021	5	10	Vial: 629336002016 Pack: 629336002023	970980	115591	10099119	Week of August 14, 2017

During this transition period, the existing product code may still be in distribution until inventory is depleted. Therefore, you may receive both the old and new product codes for a brief period of time.

Thank you for your patience and understanding during this transition period. If you would like to obtain more information on this product, please contact your hospital representative or our Customer Service Department at (877) 821-7724.

Sincerely,

George Shamsoun
Product Manager – IV Drugs
