

## Quality Policy

**We are caring for life** and are committed to **increasing the quality & efficiency of healthcare** for a growing number of people. We achieve this by **reliably** providing **affordable, high-quality, safe as well as effective products and services** to Healthcare Professionals and patients.

We carry out this commitment by:

- **Embracing** customer, user and regulatory expectations & **requirements** while consistently **meeting or exceeding these** in distribution and services.
- **Monitoring** product & patient **safety** continuously.
- **Maintaining** a transparent, well-documented, controlled, and regulatory compliant **Quality Management System while continuously improving** its suitability, adequacy and effectiveness.
- Having a **competent, well-trained organization** with clearly defined **responsibilities & authorities**.
- Pursuing **continuous improvement** and effective risk & information management.

The quality of our products and services as well as adherence to the Quality Management System is the **responsibility of each employee** and essential for the achievement of our quality objectives.
