## CompoSeal® Mobilea II Portable Tube Sealer

The CompoSeal Mobilea II is a lightweight, portable radio frequency (RF) sealer designed to seal medical PVC tubing in both mobile donation settings and processing environments.

The power management system uses high capacity Lithium Polymer battery technology to combine quality sealing performance and fast charging.

High capacity Lithium Polymer battery

---

Portable, lightweight design

---

Built for demanding use in mobile settings

---

Consistent seal quality

---

# CompoSeal Mobilea II

## Portable Tube Sealer

Portable lightweight sealer with high battery capacity

- Lithium Polymer battery provides up to 1,000 seals when fully charged (validated using common sized blood bag tubing)
- Designed for portable use
  - Lightweight 1.8 lb power pack
  - Robust aluminum housing
  - Protective padding for high-demand environments
- Recharge an empty battery within 2 hours
- Consistent, quality seals
- Quick and easy operation
- Automatically adjusts sealing time based on tube thickness
