

Environmental Management ISO 14001:2015 Environmental Policy

The plants of the Global Operations – North America (GO-NAM) Production Units (PUs) of the Pharmaceuticals Division of Fresenius Kabi USA, LLC (legal entity) namely, the following PUs:

- PU Grand Island, New York
- PU Melrose Park, Illinois
- PU Wilson, North Carolina

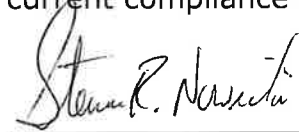

hereby commit to protect the environment as the basis of life. This includes the prevention of pollution as well as the responsible and sustainable use of resources.

Our aim is to enhance our performance in the area of environmental safety, and to fulfill compliance obligations. To achieve this target, we implement and continuously improve the environmental management system according to ISO 14001.

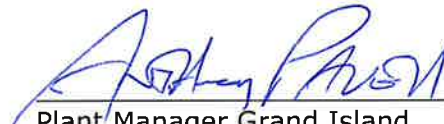

For continual improvement of the processes within the environmental management system we thereby commit:

- to identify environmental aspects and their environmental impacts
- to set objectives with regards to the environmental performance
- to identify and monitor environmental Key Performance Indicators
- to continuously improve Key Performance Indicators towards preset objectives
- to make this policy available to interested parties
- design products taking environmental aspects and impacts into account

We periodically check and evaluate our environmental policy as well as all environmental management activities. If necessary we adapt them according to the current compliance obligations and the modified context of our organization.
